To Whom It May Concern:

I have long been able to observe Jeff Feldhaus and his staff at a number of difficult venues. I have watched him valet cars for public, private and fundraising events. I have seen him valet at restaurants with tight street parking and remote parking. I have watched him at events with on-premise parking.

My experience has always been good. He and his staff are always personable with customers – they perform their duties efficiently and in a timely manner. I can highly recommend him and would hope that you would consider him for your next event.

Sincerely,
